NXP Hitag\* 3 transponders for Honda\*

# Silca ID49 Solution

**The first worldwide solution for cloning NXP Hitag\* 3 transponders for Honda\***

Silca ID49 is the only solution available on the market for cloning ID49 transponders used on certain Honda\* models manufactured from 2014. The solution allows to duplicate a wide range of keys easily identified by the letter 'G' engraved on the blade and equipped with a 96 bit NXP Hitag\* 3 transponder.

## Cloning process

Customer key identification and reading.

Data detection. When indicated by the cloning device, wrap the U-Snoop around the customer key and turn the key in the car ignition 2 times. U-Snoop LEDs illuminate to confirm successful sniffing.

Data detected via U-Snoop are downloaded onto the RW4 Plus/Fast Copy Plus.

A Silca replacement key is written via the cloning device.

## Free software update for RW4 Plus and Fast Copy Plus

The solution is available with a simple software update of the RW4 Plus and Fast Copy Plus to the 04.09.094 version. The solution is not available for RW4 + P-Box and Fast Copy + P-Box.

## U-Snoop to detect data from the immobilizer

For certain vehicles, the U-Snoop is needed to detect data directly from the car immobilizer unit.

## Universal device

U-Snoop can substitute the Snoop and M-Snoop devices, used in the Silca ID46 and Silca ID48 Solutions respectively.

## New T49 transponder

The T49 transponder

The Silca ID49 Solution requires the Silca T49 transponder, the RW4 Plus/Fast Copy Plus updated to 04.09.094 version and, for certain vehicles, the U-Snoop device

required in the Silca ID49 Solution is compatible with the Silca Automotive TE and MH-TA key ranges.

## Cloning and precoding

The Silca ID49 Solution allows you to clone and precode 96 bit NXP Hitag\* 3 transponders for a subsequent programming with a diagnostic device.

## Familiar process

You can clone T49 transponders in exactly the same, familiar way you clone other Silca transponders.

## Packaging optimized for hook display

The transponder T49 is individually packed for optimized stocking and hook display.

## Vehicle Applications

Region	Honda* model	From	To	Region	Honda* model	From	To
Asia	City	2014		Europe	HR-V	2015	
Asia	Spirior	2015	2018	Europe	Jazz	2015	
Asia	Stepwgn	2015		N. America	Accord	2013	2018
Asia	Vezel	2013		N. America	Civic	2014	
Australia	City	2014		N. America	Crosstour	2013	2016
China	XR-V	2013		N. America	CR-V	2014	
Europe	Civic	2014		N. America	Fit	2015	
Europe	CR-V	2014		N. America	HR-V	2016
